Spa Luisa

The smaller Spa Wellness Centre on the Bled Lake shore is an intimate sanctuary for everyone who wants relaxation, peace and privacy. The elegant environment and the view of the Bled panorama makes every service a special experience.

The special feature of the Luisa Spa is an elegant thermal spa built in 1925, which is filled from a healing thermal water source. The source (22°C) has been associated with healing effects for almost two centuries. The effects of drinking and bathing in thermal water are immediately evident. Bathing in thermal water has a soothing effect on the cardiovascular system, while drinking it helps to relieve stomach problems.

Choose from relaxing and soothing massage therapies, peels, anti-cellulite programmes, baths, pampering for two, and sauna sessions.
