

# A BOUNTY OF THE BEST

DISCOVER TERME 3000

I FEEL  
SLOVENIA

Terme 3000 – Moravske Toplice is one of Slovenia's largest thermal resorts. In Prekmurje, nature has been truly generous, and we love to share its many gifts with our guests. The beneficial thermal mineral water from the black depths under the thermal resort fills our pools and famous black baths. Pillows filled with local grain guarantee a good night's sleep. The hotel restaurants beckon guests with hearty Prekmurje flavours. You will be massaged with local pumpkin seed oil, and herbs from the Pannonian plains. Add to this the adrenaline-filled fun in our water parks, and your holiday at Terme 3000 truly offers a bounty the best!

MORAVSKE TOPLICE**

SAVA HOTELS & RESORTS

## WATER FUN FOR ALL AGES

Our thermal mineral water springs from the black depths under Terme 3000 in Moravci. The high temperature of the water at the source makes it unique not just in Europe but on a global scale. Uncover the secrets of buckwheat and energy harmony, chromotherapy and beneficial sauna treatments at the 3 hotels' thermal pools.

You can use the panoramic walkway to access the thermal park, including an indoor section with two floors. In the summer, the thermal park turns into a perfect spot for adrenaline enthusiasts. You can test your courage on the 360-degree looping slide with twice the acceleration of a racing car, or experience complete freefall on the 22-metre Kamikaze slide. Are you brave enough to give them a try?

## DISCOVER THE LANDSCAPE ALONG THE MURA RIVER

- ▶ Visit renowned wine cellars, ham houses, beekeepers, chocolateries and modern beer breweries on the Pannonian plains and hills riddled with vineyards.
- ▶ In just a few days, you can ride your bicycle through many thematic routes, and discover the beauty of Prekmurje and neighbouring Austria, Hungary and Croatia.
- ▶ Experience the beneficial power of nature surrounding Lake Bukovnica, with 26 energy points and well water which folk tradition says helps to improve eyesight.
- ▶ On the Island of Love, you can see the floating mill on the Mura River, and in the pottery village of Filovci, you can witness the making of traditional products made from corn husk.
- ▶ In the Expano pavilion, you can move the surface of the water with the power of your mind, and fly over the fields and vineyards; at the Vulkanija Adventure Park, you can experience the eruption of a volcano, and the climb to the Vinarium observation tower will reward you with a stunning view of 4 different countries at the same time.

The black thermal mineral water from Moravske Toplice was proclaimed a natural healing remedy back in 1964. At a temperature of 37°C, our black thermal mineral water baths are the warmest in Slovenia. Bathing in our water has beneficial effects. It refreshes the body and soul, promotes blood circulation, and helps relax the nerves.

**Indications:**
